

# **UI/UX Design Fundamentals – Module 1 Exercise**

## **Hands-on Exercise No. 1**

**Course:** UI/UX Design Fundamentals

**Module:** Design Principles

**Total Marks:** 10

**Due Date:** 05/06/2026

---

## **Instructions**

Prepare your solution in MS Word.

Submit in .doc or .docx format.

Late or copied submissions will not be accepted.

---

## **Learning Outcome**

After completing this exercise, you will be able to:

- Apply visual hierarchy in design.
  - Use color theory effectively.
  - Select appropriate typography for digital interfaces.
- 

## **Problem Statement**

You are working as a UI Designer for a startup building a learning platform. The client wants a clean and intuitive homepage design that demonstrates strong visual hierarchy and accessibility.

---

## **Task Requirements**

Create a wireframe for a homepage layout that includes:

- Header with navigation.
- Hero section with title and call-to-action button.
- Course highlights section.
- Footer with contact information.

Apply the following design principles:

- Choose a primary, secondary, and accent color using color theory.
  - Select appropriate typography for headings and body text and explain your choices.
  - Ensure accessibility by maintaining proper contrast ratios for readability.
- 

## **Take Screenshots of**

- Wireframe layout (digital or hand-drawn).
  - Design mockup (Figma, Adobe XD, or any tool used).
  - Color palette selection.
  - Typography choices with explanation.
- 

## **Submission Guidelines**

Upload your .docx file with wireframe screenshots, color palette, typography choices, and explanations via LMS.
