

UI/UX Design Fundamentals – Module 2 Exercise

Hands-on Exercise No. 2

Course: UI/UX Design Fundamentals

Module: Wireframing & Prototyping

Total Marks: 10

Due Date: 07/06/2026

Instructions

Prepare your solution in MS Word.

Submit in .doc or .docx format.

Late or copied submissions will not be accepted.

Learning Outcome

After completing this exercise, you will be able to:

- Create wireframes for digital interfaces.
 - Develop interactive prototypes.
 - Apply usability testing methods.
 - Iterate designs based on feedback.
-

Problem Statement

You are working as a UX Designer for a mobile banking app. The client wants a prototype of the login and dashboard flow to test usability before development.

Task Requirements

Create wireframes for the following screens:

- Login screen including username, password, and login button.
- Dashboard screen including account balance, recent transactions, and navigation menu.

Convert wireframes into an interactive prototype using Figma, Adobe XD, or Sketch.

Add the following interactions:

- Clicking the “Login” button should navigate to the dashboard screen.
- Navigation menu should open the transaction history section.

Conduct a simple usability test with at least two users and record their feedback.

Refine the prototype based on user feedback and improve usability.

Take Screenshots of

- Wireframes for login and dashboard screens.
- Prototype showing interactions and navigation flow.
- Usability testing notes and feedback from users.

Submission Guidelines

Upload your .docx file with wireframe screenshots, prototype links or images, usability feedback, and final improvements via LMS.
