

UI/UX Design Fundamentals – Module 3 Exercise

Hands-on Exercise No. 3

Course: UI/UX Design Fundamentals

Module: User Research & Testing

Total Marks: 10

Due Date: 09/06/2026

Instructions

Prepare your solution in MS Word.

Submit in .doc or .docx format.

Late or copied submissions will not be accepted.

Learning Outcome

After completing this exercise, you will be able to:

- Conduct user research through surveys and interviews.
 - Apply usability testing methods.
 - Analyze user feedback to improve designs.
 - Document findings in a professional format.
-

Problem Statement

You are working as a UX Researcher for an online education platform. The client wants to understand how students interact with the course dashboard and identify pain points.

Task Requirements

Design a short survey consisting of 5–7 questions to collect feedback on dashboard usability, such as ease of navigation, clarity of content, and overall user satisfaction.

Conduct two user interviews (can be mock interviews) focusing on:

- Navigation experience
- Content clarity
- Ease of use

Perform a usability test with at least two users using the prototype created in Module 2.

Document key findings including:

- Common issues faced by users.
- Positive aspects of the design.
- Suggested improvements.

Create a summary report including charts or tables to represent survey results clearly.

Take Screenshots of

- Survey questions.
 - Interview notes.
 - Usability test observations.
 - Summary report visuals (charts/tables).
-

Submission Guidelines

Upload your .docx file with survey, interview notes, usability test results, and summary report via LMS.
