

UI/UX Design Fundamentals – Module 4 Exercise

Hands-on Exercise No. 4

Course: UI/UX Design Fundamentals

Module: Final Project & Portfolio

Total Marks: 10

Due Date: 11/06/2026

Instructions

Prepare your solution in MS Word.

Submit in .doc or .docx format.

Late or copied submissions will not be accepted.

Learning Outcome

After completing this exercise, you will be able to:

- Apply UI/UX principles to a complete project.
 - Create polished, high-fidelity designs.
 - Document your design process professionally.
 - Build a portfolio-ready case study.
-

Problem Statement

You are working as a UI/UX Designer preparing your portfolio for job applications. The client (yourself) wants a complete design project that demonstrates your skills from research to final prototype.

Task Requirements

Choose a project theme such as an eCommerce app, learning platform, or healthcare app.

Document the complete design process:

- Define a clear problem statement.
- Summarize user research findings.
- Create wireframes and interactive prototypes.
- Conduct usability testing and document results.

- Design final high-fidelity screens.

Create a style guide that includes:

- Color palette selection.
- Typography system for headings and body text.
- Component library including buttons, cards, and form elements.

Present the final design using Figma, Adobe XD, or Sketch.

Write a portfolio case study (1–2 pages) explaining:

- Design decisions
- User insights
- Improvements made during iterations
- Final outcomes

Take Screenshots of

- Wireframes and interactive prototypes.
- Final high-fidelity UI screens.
- Style guide (colors, typography, components).
- Case study document layout.

Submission Guidelines

Upload your .docx file with screenshots, style guide, and case study via LMS.
