

Module 3 – UX Research & Testing

1. User Research

What is User Research?

User research is the process of understanding user needs, behaviors, and motivations through observation and feedback.

Why It Matters

- Helps design user-centered products
- Reduces assumptions in design
- Improves product effectiveness

Common Methods

- Surveys
 - Interviews
 - Observations
 - Analytics
-

2. Personas

What are Personas?

Personas are fictional characters created based on real user data to represent different user types.

Why Personas Are Used

- Understand target users
- Guide design decisions
- Improve user empathy

Example Attributes

- Age
 - Goals
 - Behavior
 - Pain points
-

3. Usability Testing

What is Usability Testing?

Usability testing is evaluating a product by testing it with real users.

Why It Is Important

- Identifies usability issues
- Improves user experience
- Validates design decisions

Key Focus Areas

- Ease of use
 - Navigation clarity
 - Task completion
-

4. A/B Testing

What is A/B Testing?

A/B testing compares two versions of a design to see which performs better.

How It Works

- Version A = original design
- Version B = modified design
- User behavior is compared

Benefits

- Data-driven decisions
 - Improved conversions
 - Better user engagement
-

5. Feedback Analysis

What is Feedback Analysis?

Feedback analysis is collecting and studying user feedback to improve the product.

Sources of Feedback

- User reviews
- Surveys
- Support tickets
- Social media

Why It Matters

- Identifies user problems
 - Helps improve features
 - Guides future updates
-

6. Key Concepts to Remember

- Research helps understand users
 - Personas represent real user types
 - Usability testing finds design issues
 - A/B testing compares design versions
 - Feedback improves product quality
-

7. Summary

UX research and testing ensure that designs are based on real user needs instead of assumptions. By using research, personas, testing methods, and feedback analysis, designers can create more effective and user-friendly products.
